

During this unprecedented COVID-19 pandemic, it is necessary for us to do a needs assessment at this time to prepare for future instructional needs in case of longer school closures. We are asking you to please complete a Technology Access Survey on the District Webpage by Sunday, March 22.

If your family does NOT have the ability to complete this technology survey, please call your child's school to provide the requested information.

Please call the school on Monday, March 23 between 8:00am and 1:00pm

Please be patient and safe during this difficult time.
