

New Mask Requirement

Last week, the [American Academy of Pediatrics \(AAP\)](#) released an update to [their guidance](#) strongly recommending children age two and older should wear face coverings **at all times** to help mitigate the spread of the COVID-19 virus. Prior guidance we released in collaboration with the Pennsylvania Department of Health (DOH) stated students in schools could remove their face coverings as long as six feet of social distancing could be maintained. Given this recent change from the AAP, and consistent with the [Secretary of Health's Face Covering Order issued on July 1, 2020](#), DOH is requiring **students wear face coverings at all times while in school**, even when six feet of social distancing can be achieved. There are limited exceptions.

Questions

Under what circumstances are students permitted to remove their face coverings (e.g. masks and face shields)?

Schools may allow students to remove face coverings when students are:

- Eating or drinking when spaced at least 6 feet apart; or
- When wearing a face covering creates an unsafe condition in which to operate equipment or execute a task; or
- At least 6 feet apart during “face-covering breaks” to last no longer than 10 minutes.

Do students with disabilities need to wear face coverings?

Children two years and older are required to wear a face covering unless they have a medical or mental health condition or disability, documented in accordance with Section 504 of the Rehabilitation Act or IDEA, that precludes the wearing of a face covering in school. Accommodations for such students should be made in partnership with the student's health care provider, school nurse, and IEP/504 team.
